

## **puzzle game**

### **the procedural:**

**To play the puzzle game with 4 different grid sizes (3x3, 4x4, 5x5, and 6x6):**

**Step1:** Select one grid size.

**Step2:** The game will display a mixed image in the selected grid.

**Step3:** Rearrange the squares by swapping them to form the original image.

**Step4:** You must complete the puzzle by fitting the picture correctly.

**Step5:** There is no specific time for completing the puzzle, but try to finish as quickly as possible.
